| | High IO usage | YES | ENVISIONED |
| | High memory usage | YES | YES |
| | High page faults | YES | ENVISIONED |
| | Bluescreens | YES | ENVISIONED |
| | Hard resets | YES | YES |
| | SMART disk failures | YES | ENVISIONED |
| Execution | High CPU usage | YES | YES |
| | High memory usage | YES | YES |
| | Application not responding | YES | ENVISIONED |
| | Crash | YES | YES |

Device Properties

| Feature | Windows | Mac |
|------------------|---------|------------------------|
| Properties | YES | YES |
| Hardware | YES | PARTIALLY ⁴ |
| Network | YES | YES |
| Startup | YES | PARTIALLY ⁵ |
| Operating system | YES | PARTIALLY ⁶ |
| Local drives | YES | PARTIALLY ⁷ |
| Security | YES | ENVISIONED |
| Policy | YES | ENVISIONED |
| Inventory | YES | YES |
| Activity | YES | YES |
| Time | YES | YES |
| Volume | YES | YES |
| Availability | YES | YES |
| Collector | YES | PARTIALLY ⁸ |

⁴ Missing: Graphical cards, monitors, S.M.A.R.T. index

⁵ Missing: Boot duration, logons

⁶ Missing: Last system update, OS license key, Local users and administrators

⁷ Missing: Non-system drives.

⁸ Only Collector version is reported

Module & Component

| Item | Windows | Mac |
|------------------------|---------|------------------|
| Web & Cloud | YES | ENVISIONED |
| Act | YES | ENVISIONED |
| Engage | YES | YES |
| Updater/TCP connection | YES | ENVISIONED / YES |
| Rebootless | YES | YES |

ABOUT NEXTHINK

Nexthink provides digital experience management for the enterprise. Leading global companies know that satisfied employees generate more satisfied customers. With Nexthink, organizations can deliver consumer-grade experiences to their employees to increase satisfaction and productivity. Nexthink combines data collection, monitoring, analysis, remediation, intelligence and communication, to engage with employees and gather the right context for continuous optimization. Nexthink is privately held with headquarters in Lausanne, Switzerland, and U.S. headquarters in Boston, Mass. www.nexthink.com
